AHMAD SUFI KHAIRUL AZHA

Cloud Computing Enthusiast

About Me

A curious and adaptable Diploma student in Cloud Computing with hands-on experience in Linux and Windows server setup, virtualization, web development, and AI prompt engineering. An international STEM innovation gold medalist with strong problem-solving skills and the ability to work calmly under pressure, seeking to build a solid foundation for a successful career in IT and cloud computing.

Skills

- Cloud, Server & Virtualization
- Web & Application Development
- Programming & Scripting
- AI & Automation
- Hardware & Embedded Systems

Language

- English
- Malay

Education

(2024 –2027)

TVETMARA CAMPUS BESUT

DIploma In Computer Technology (Cloud Computing)

3.94

TECHNICAL EXPERIENCE

VIRTUALIZATION & SERVER ADMINISTRATION

- Set up and managed Linux and Windows servers in virtualized environments
- Performed system configuration, service deployment, and basic maintenance
- Gained hands-on experience in server management and troubleshooting

CLOUD & SELF-HOSTED SERVICES

- Deployed Nextcloud for personal cloud storage and collaboration
- Configured Raspberry Pi as a server, running services using Docker and Streamlit
- Practiced container-based deployment and lightweight infrastructure hosting

🎓 Certifications , Competitions & Training

- CloudHunt Competition – Participated in cloud computing competition against institutions across Malaysia
- Cisco Networking & Data Communication Certificates
- Beginner Level
- Intermediate Level
- WorldSkills Malaysia Belia (WSMB) 2025 – Cloud Computing
- Attendee and competitor
- Additional self-learning through online resources and GitHub-based courses

⚙️ Soft Skills

- Leadership
- Communication & Presentation
- Problem-solving
- Teamwork
- Adaptability

🌡️ Personal Values

- "Quality means doing it right when no one is looking." — Henry Ford

💼 TECHNICAL EXPERIENCE

● WEB DEVELOPMENT PROJECTS

- Developed full-stack web applications, handling both frontend and backend components
- Implemented responsive user interfaces and backend logic
- Familiar with development, testing, and deployment workflows

● AI PROMPT ENGINEERING & USAGE

- Experienced in crafting effective AI prompts for learning, tools, and project development
- Applied AI to improve productivity, content structuring, and problem-solving
